

American Airlines Robert L. Crandall Campus

FORT WORTH, TEXAS

YEAR 2020

SIZE 258 acres

USE Corporate offices, airline training facilities, museum, administrative buildings, hospitality complex, multi-modal connections, outdoor recreation and amenity space

AWARDS

2022 ULI North Texas Impact Award, Innovation Category

2019 Boston Society of Landscape Architects, Honor Award

- + The new campus brings together nearly 12,000 people to create one connected campus for the entire American Airlines team.
- + Over 100+ bicycles are scattered throughout the campus to encourage pedestrian traffic. These exterior amenities return the central open space to people, as well as removes all vehicular traffic.
- + The campus' 81-acres of amenity space includes work-enabled courtyards, active recreation areas, woodland trail systems and regional multi-use connection paths.
- + LEED Gold certified

The goal for American Airlines' new headquarters campus was to enhance employees' ability to connect and collaborate. Various outdoor spaces sit within a native Texas landscape, including approximately 58-acres of woodlands and 8.3 miles of trails, which encourage employees to walk between buildings, spend time in the fresh air and collaborate with co-workers from other departments.
